SINCE 1923

High quality, designed to last through the cold.

AW22 is designed based on the changing colors and the many shades we meet in nature during the autumn. The beautiful beige colors, the contrast in the soil when the leaves fall off the trees and the beautiful green colors that meet us before the cold fall kicks in.

We have worked with many of our existing qualities, mixed them into completely new combinations and given them a new life. The expression is cool, and with soft edges and feminine silhouettes. The combination of wool and the soft yak and merino qualities gives a delicious and modern expression.

AW22 er designet med udgangspunkt i de skiftende farver og de mange nuancer vi møder i naturen i løbet af efteråret. De smukke nedtonede beige farver, kontrasten i jordbunden når bladene falder af træerne og ikke mindst de smukke grønne farver der møder os inden det kolde efterår sætter ind.

Vi har arbejdet med mange af vores eksisterende kvaliteter, men mikset dem i helt nye kombinationer og givet dem nyt liv. Udtrykket er skarpt, men med bløde kanter og feminine silhouetter. Kombinationen af den kraftige uld og de fløjsbløde yak og merino kvaliteter giver et lækkert og moderne udtryk.

A special thanks to
